RSM US LLP

Independent Auditor's Report

Board of Directors
Truth Initiative Foundation

Opinion

We have audited the financial statements of the Truth Initiative Foundation (Truth Initiative), which comprise the balance sheets as of June 30, 2023 and 2022, the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Truth Initiative as of June 30, 2023 and 2022, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Truth Initiative and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1 to the financial statements, on July 1, 2022, Truth Initiative adopted new accounting guidance for its leases under Financial Accounting Standards Board's Accounting Standards Codification Topic 842, Leases. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Truth Initiative's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Truth Initiative's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Truth Initiative's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies

Nature of activities: In November 1998, a coalition of 46 state attorneys general successfully settled their civil cases with the tobacco companies. As a result, the settling states and the participating tobacco manufacturers entered into two separate settlement agreements: the Master Settlement Agreement (MSA) and the Smokeless Tobacco Master Settlement Agreement (STMSA). The two settlement agreements provided for the establishment and initial funding of a Section 501(c)(3) organization to reduce tobacco and nicotine usage in the United States. Pursuant to these agreements, an organization named Master Settlement Agreement Foundation (MSA Foundation) was created in March 1999, and was later renamed American Legacy Foundation.

As of August 27, 2015, American Legacy Foundation legally changed its name to Truth Initiative Foundation (Truth Initiative) to reflect its objective to align all organization programs more closely with the truth campaign and consistent with its mission to achieve a culture where all youth and young adults reject tobacco.

Truth Initiative is governed by a Board of Directors, which is comprised of state governors, legislators, attorneys general and experts in the medical, education and public health fields.

Truth Initiative's bylaws set forth its functions as follows:

Carrying out a nationwide sustained advertising and education program to: (a) counter the use by youth of tobacco products, and (b) educate consumers about the cause and prevention of diseases associated with the use of tobacco products.

Developing and disseminating model advertising and education programs to counter the use by youth of substances that are unlawful for the use or purchase by youth, with an emphasis on reducing youth tobacco and nicotine use, monitoring and testing the effectiveness of such model programs and, based on the information received from such monitoring and testing, continuing to develop and disseminate revised versions of such model programs, as appropriate.

Developing and disseminating model classroom education programs and curriculum ideas about tobacco and nicotine use and substance abuse in the K-12 school system, including specific target programs for special at-risk populations, monitoring and testing the effectiveness of such model programs and ideas and, based on the information received from such model programs or ideas, continuing to develop and disseminate revised versions of such model programs, as appropriate.

Developing and disseminating criteria for the effectiveness cessation program, monitoring and testing the effectiveness of such criteria and continuing to develop and disseminate revised versions of such criteria, as appropriate.

Commissioning studies, funding research and publishing reports and factors that influence youth tobacco and nicotine use and substance abuse, and developing strategies to address the conclusions of such studies and research.

Developing other innovative youth tobacco and nicotine use and substance abuse prevention programs.

Providing targeted training and information for parents.

Maintaining a library of Truth Initiative-funded studies, reports and other publications related to the cause and prevention of youth tobacco and nicotine use and substance abuse that will be open to the public.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Tracking and monitoring youth tobacco and nicotine use and substance abuse, with a focus on the reason for any increases in or failures to decrease youth tobacco and nicotine use and substance abuse, and what actions can be taken to reduce youth tobacco and nicotine use and substance abuse.

Receiving, controlling and managing contributions and funds provided by other entities for further purposes described in Truth Initiative's certificate of incorporation.

Truth Initiative is organized around its four primary program goals: (i) youth/young adult public education (primarily through the truth[®] anti-tobacco counter-marketing campaign), (ii) research policy and practice, including the activity of Truth Initiative's evaluation science research function and its Schroeder Institute for Tobacco Research and Policy Studies, (iii) community and youth engagement activities, including Truth Initiative's youth activism program and (iv) using innovative digital tools to design, build and market effective and scalable approaches to smoking cessation. Truth Initiative also has an operations function for administration, fiscal, legal, technology and personnel activities.

A summary of Truth Initiative's significant accounting policies follows:

Basis of presentation: The financial statement presentation follows the recommendations of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification). As required by the Non-Profit Entities Topic of the Codification, Truth Initiative is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions. Truth Initiative had no net assets with donor restrictions at June 30, 2023 and 2022.

Cash and cash equivalents: For purposes of the statements of cash flows, Truth Initiative considers all short-term, highly liquid debt instruments to be cash equivalents, including money market funds and repurchase agreements purchased with an original maturity of three months or less.

Financial risk: Truth Initiative maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. Truth Initiative has not experienced any losses in such accounts. Truth Initiative believes it is not exposed to any significant financial risk on cash. Truth Initiative invests in various equities and alternative investments. Such investments are exposed to various risks, such as market and credit. Due to the level of risk associated with such investments, and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

Securities transactions, interest and dividends: Securities transactions are recorded on a trade-date basis and are carried at their fair value. Realized gains and losses on securities transactions are determined on a specific identification basis and are included in investment income, net of fees in the accompanying statements of activities. The change in the fair value of investments is also included in investment income, net of fees in the accompanying statements of activities. Interest income is recognized under the accrual basis. Dividend income is recognized on the ex-dividend date.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Valuation of investments and cash equivalents: Investments are presented in the financial statements at fair value in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Mutual funds, U.S. stocks and global stocks consist of investments in securities traded on a national securities exchange, or reported on the NASDAQ national market, are stated at the last reported sales price on the day of valuation; other securities traded on the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price, except for short sales positions and call options written, for which the last quoted asked price is used.

Truth Initiative considers repurchase agreements, money market funds, the State Street Institutional Reserves Fund and deposits held at a futures broker to be cash equivalents based on the short maturity and liquidity of the assets. Accordingly, Truth Initiative's management utilizes the dollar per unit price provided by the custodian of the assets as a basis for the fair value assessment.

Investments in commingled/common trust funds, hedge funds and private equity funds are valued at fair value based on the applicable percentage ownership of the underlying fund/partnerships' net assets as of the measurement date, as provided by the fund managers. The underlying investment funds/partnerships value securities and other financial instruments on a fair value basis of accounting. The estimated fair values of certain investments of the underlying investment funds/partnerships, which may include private placements and other securities for which prices are not readily available, are determined by the general partner or sponsor of the respective funds and investment partnerships and may not reflect amounts that could be realized upon immediate sale, nor amounts that may ultimately be realized. Accordingly, the estimated fair values may differ significantly from the values that would have been used had a ready market existed for these investments. The fair value of Truth Initiative's investments in funds and investment partnerships generally represents the amount Truth Initiative would expect to receive if it were to liquidate its investment in the other investment partnerships, excluding any redemption charges that may apply.

The fund managers of underlying funds and investment partnership funds in which Truth Initiative invests may utilize derivative instruments with off-balance-sheet risk. Truth Initiative's exposure to risk is limited to the amount of its investment.

Financial instruments with off-balance-sheet risk: In connection with its trading activities, Truth Initiative enters into transactions involving a variety of securities and derivative financial instruments. These derivative financial instruments may have market and/or credit risk in excess of the amounts recorded in the balance sheets.

Market risk: Market risk arises primarily from changes in the market value of financial instruments. Theoretically, Truth Initiative's exposure is equal to the notional value of contracts purchased and unlimited on such contracts sold short.

Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments and the volatility and liquidity in the markets in which the financial instruments are traded. In many cases, the use of financial instruments serves to modify or offset market risk associated with other transactions and, accordingly, serves to decrease Truth Initiative's overall exposure to market risk. Truth Initiative attempts to control its exposure to market risk through various analytical monitoring techniques.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Concentrations of credit risk: Truth Initiative is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, Truth Initiative may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is Truth Initiative's policy to review, as necessary, the credit standing of each counterparty.

In the normal course of its business, Truth Initiative enters into contracts and agreements with certain service providers, such as clearing and custody agents, trustees and administrators, that contain a variety of representations and warranties, and which provide general indemnifications and guarantees against specified potential losses in connection with their activities as an agent of, or providing services to, Truth Initiative. Truth Initiative's maximum exposure under these agreements is unknown, as this may involve future claims that could be made against Truth Initiative and have not yet occurred. Truth Initiative expects the risk of any future obligation under these arrangements to be remote and has not recorded any contingent liability in the financial statements for these indemnifications.

Accounts receivable: Accounts receivable, which are included with other assets on the balance sheet, are carried at the original invoice amount less an estimated allowance for uncollectible accounts. Management determines the allowance for doubtful accounts by regularly evaluating individual receivables and considering a customer's financial condition, credit history, current economic conditions, and the age of the receivable balance. Changes in the estimated collectability of accounts receivable are recorded for the period in which the estimate is revised. Accounts deemed uncollectible are charged to the allowance in the year they are deemed uncollectible. At June 30, 2023 and 2022, management determined no allowance for doubtful accounts was necessary.

Property and equipment: Truth Initiative capitalizes all property and equipment and buildings purchased with a cost of \$5 or more at cost, and depreciates them using the straight-line method over the estimated useful lives of the assets, which range from three to 11½ years. Leasehold improvements are amortized using the straight-line method over the lesser of the estimated useful lives of the assets or the related lease terms. Truth Initiative expenses preliminary project stage costs as incurred. Capitalized application stage software costs are amortized over three years using the straight-line method. Post-implementation and operation stage costs are expensed as incurred.

Valuation of long-lived assets: Truth Initiative reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of the long-lived asset is measured by a comparison of the carrying amount of the asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. Assets to be disposed of are reportable at the lower of the carrying amount or fair value, less costs to sell.

Debt issuance costs: The costs associated with debt issuance are being amortized on the effective interest method over the term of the debt acquired. Unamortized debt issuance costs are reported with bonds payable.

Income taxes: Truth Initiative is generally exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). In addition, Truth Initiative has been classified as an organization that is not a private foundation. Income, which is not related to its exempt purposes, less applicable deductions, is subject to federal and state corporate income taxes.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Truth Initiative follows the accounting standard on accounting for uncertainty in income taxes, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, Truth Initiative may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. The guidance on accounting for uncertainty in income taxes also addresses de recognition, classification, interest, penalties on income taxes and accounting in interim periods.

Management evaluated Truth Initiative's tax positions and concluded that Truth Initiative had taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of the guidance for accounting for uncertainty in income taxes.

Allocation of expenses: The costs of providing the program and supporting services have been summarized on a functional basis in the accompanying statements of activities. Expenses are either directly charged to program services as incurred or proportionately allocated to functional categories, based on various allocation methods. Certain management and staff expenses have been allocated to programs on the basis of time spent. Other expenses have been allocated to programs on a percentage basis.

Revenue recognition: Unconditional contributions received are recorded as increases in net assets with or without donor restrictions, depending on the existence and/or nature of any donor restrictions. Unconditional promises to give are recognized as revenue or gains in the period acknowledged. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Grants received without conditions are treated consistent as unconditional contributions. Grants that contain a right of return or release by the resource provider and a barrier (performance obligations, control elements and/or overall nature of the agreement) are considered conditional contributions. Donor-restricted support that are initially conditional contributions are recognized as an increase in net assets without donor restrictions if the restrictions are met in the same period the support becomes unconditional. Federal grant revenues are recognized as allowable expenses are incurred under the terms of the grant. Truth Initiative defers grant collections under approved awards from grantors to the extent amounts received exceed expenditures incurred for the purposes specified under the grant restrictions. These deferred grants are recorded as refundable advances.

Grant expense: Unconditional grants are expensed when approved. Conditional grants are expensed as the conditions are satisfied.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Adopted accounting pronouncement: In February 2016, the FASB issued Accounting Standards Codification (ASC) Topic 842, Leases, to increase transparency and comparability among organizations related to their leasing arrangements. The update requires lessees to recognize most leases on their balance sheets as a right-of-use (ROU) asset representing the right to use an underlying asset and a lease liability representing the obligation to make lease payments over the lease term, measured on a discounted basis. Topic 842 also requires additional disclosure of key quantitative and qualitative information for leasing arrangements. Similar to the previous lease guidance, the update retains a distinction between finance leases (similar to capital leases in Topic 840, Leases) and operating leases, with classification affecting the pattern of expense recognition in the statement of activities. Truth Initiative adopted Topic 842 on July 1, 2022, using the optional transition method to the modified retrospective approach, which eliminates the requirement to restate the prior-period financial statements. Under this transition provision, Truth Initiative has applied Topic 842 to reporting periods beginning on July 1, 2022, while prior periods continue to be reported and disclosed in accordance with Truth Initiative's historical accounting treatment under ASC Topic 840, Leases.

Truth Initiative elected the "package of practical expedients" under the transition guidance within Topic 842, in which Truth Initiative does not reassess: (1) the historical lease classification, (2) whether any existing contracts at transition are or contain leases, or (3) the initial direct costs for any existing leases. Truth Initiative has not elected to adopt the "hindsight" practical expedient and, therefore, will measure the ROU asset and lease liability using the remaining portion of the lease term upon adoption of ASC 842 on July 1, 2022.

Truth Initiative determines if an arrangement is or contains a lease at inception, which is the date on which the terms of the contract are agreed to, and the agreement creates enforceable rights and obligations. A contract is or contains a lease when (i) explicitly or implicitly identified assets have been deployed in the contract and (ii) Truth Initiative obtains substantially all of the economic benefits from the use of that underlying asset and directs how and for what purpose the asset is used during the term of the contract. Truth Initiative also considers whether its service arrangements include the right to control the use of an asset.

Truth Initiative made an accounting policy election available under Topic 842 not to recognize ROU assets and lease liabilities for leases with a term of 12 months or less. For all other leases, ROU assets and lease liabilities are measured based on the present value of future lease payments over the lease term at the commencement date of the lease (or July 1, 2022, for existing leases upon the adoption of Topic 842). The ROU assets also include any initial direct costs incurred and lease payments made at or before the commencement date and are reduced by any lease incentives. To determine the present value of lease payments, Truth Initiative made an accounting policy election available to non-public companies to utilize a risk-free borrowing rate, which is aligned with the lease term at the lease commencement date (or remaining term for leases existing upon the adoption of Topic 842).

Future lease payments may include fixed rent escalation clauses or payments that depend on an index (such as the consumer price index), which is initially measured using the index or rate at lease commencement. Subsequent changes of an index and other periodic market-rate adjustments to base rent are recorded in variable lease expense in the period incurred. Residual value guarantees or payments for terminating the lease are included in the lease payments only when it is probable they will be incurred.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Truth Initiative has made an accounting policy election to account for lease and non-lease components in its contracts as a single lease component for its real estate and equipment asset classes. The non-lease components typically represent additional services transferred to Truth Initiative, such as common area maintenance for real estate, which are variable in nature and recorded in variable lease expense in the period incurred.

Adoption of Topic 842 resulted in the recording of additional ROU assets and lease liabilities related to Truth Initiative's operating leases of approximately \$5,931 and \$8,979, respectively, at July 1, 2022. The adoption of the new lease standard did not materially impact change in net assets or cash flows and did not result in a cumulative-effect adjustment to the opening balance of net assets.

Subsequent events: Truth Initiative has evaluated subsequent events through October 23, 2023, the date on which the financial statements were available to be issued.

Note 2. Investments

Investments at June 30, 2023 and 2022, consist of the following:

	2023	2022
Mutual funds	\$ 34,389	\$ 51,197
U.S. stocks	129,968	139,288
Global stocks	21,856	21,787
Fixed income bonds	35,947	34,674
Other investments measured at net asset value:		
Commingled/common trust funds	181,272	166,926
Hedge funds	63,612	66,412
Private equity funds	209,145	231,497
Other	67	132
	<u>\$ 676,256</u>	<u>\$ 711,913</u>

Investment income (loss), net of fees, for the years ended June 30, 2023 and 2022, consists of the following:

	2023	2022
Interest, dividends and accretion income	\$ 8,824	\$ 11,181
Realized and unrealized gain (loss) on investments	20,377	(77,208)
Other investment gain	7,591	8,117
Investment fees	(3,479)	(4,411)
Total investment income (loss), net of fees	<u>\$ 33,313</u>	<u>\$ (62,321)</u>

Truth Initiative Foundation

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 2. Investments (Continued)

Investment strategies of trusts, hedge fund and other funds are as follows:

- (a) **Common trust funds/commingled funds:** This category invests in common trust funds and commingled funds, which pursue a variety of investment strategies. The fair value of investments in this category has been estimated using an equivalent to a NAV per share and is available to be redeemed at that value.
- (b) **Hedge fund—multi-strategy:** The funds within this category pursue multiple strategies to diversify risk and reduce volatility. Approximately 69% and 66% of the value of category at June 30, 2023 and 2022, respectively, can be redeemed on a monthly basis with three days' notice. The remaining 31% and 34% of the value of this category can be redeemed on a semiannual basis with 60 days' notice at June 30, 2023 and 2022, respectively. The fair value of investment in this category has been estimated using the NAV per share of the investment.
- (c) **Hedge fund—semi-liquid credit:** This category includes an investment in a hedge fund that seeks to generate superior risk-adjusted returns by investing in a broad array of securities within the leveraged finance marketplace. This investment represents one class of shares, which is available to be redeemed annually on the anniversary date of the initial investment. The fair value of investment in this category has been estimated using the NAV per share of the investment.
- (d) **Other:** This category includes an emerging income fund that seeks long-term capital appreciation by investing in and holding a diversified portfolio of revenue-producing intellectual property assets and royalty interests. The fund allows redemption to the extent that there is surplus cash available and is subject to fund management's discretion.

The following categories include various private equity funds. These investments can never be redeemed with the funds. Instead, the nature of the investments in these categories is that distributions are received through the liquidation of the underlying assets of the fund. As of June 30, 2023 and 2022, it is probable that the investments in these categories will be liquidated at an amount different from the net asset value of the Truth Initiative's ownership interest in partners' capital. Therefore, the fair value of the investments in this category has been estimated using recent observable transaction information received from potential buyers of the investments. It is estimated that the underlying assets of the funds within these categories would be liquidated over five to 10 years.

The investment strategies of the funds within these categories are summarized as follows:

- (e) **Private equity funds—venture/buyout:** This category includes several private equity funds pursuing venture and/or buyout strategies to generate investment returns.
- (f) **Private equity funds—private debt:** This category includes several private equity funds focusing on private debt. The investment strategies of these funds focus on debt securities of companies undergoing financial distress, operating difficulties and significant restructuring and on acquiring eligible assets, which include certain commercial mortgage-backed securities and non-agency residential mortgage-backed securities under the Public-Private Investment Partnership, which seeks to unlock frozen credit markets and expand lending activity.
- (g) **Private equity funds—private energy and real estate:** These categories invest in various private equity funds focused on generating gains through investments in real assets, specifically real assets within the private energy sector and real estate ventures.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 3. Property and Equipment

Property and equipment and accumulated depreciation at June 30, 2023, and depreciation expense for the year ended June 30, 2023, consist of the following:

	Estimated Useful Lives (Years)	Cost	Accumulated Depreciation	Net	Depreciation Expense
Furniture and fixtures	7	\$ 1,414	\$ 1,410	\$ 4	\$ 55
Computers and software	3	265	240	25	2
Office equipment	5	1,163	795	368	43
Leasehold improvements	11½	4,377	3,034	1,343	392
Intangible assets	3	4,883	4,883	-	55
Vehicles	5	-	-	-	5
		<u>\$ 12,102</u>	<u>\$ 10,362</u>	<u>\$ 1,740</u>	<u>\$ 552</u>

Property and equipment and accumulated depreciation at June 30, 2022, and depreciation expense for the year ended June 30, 2022, consist of the following:

	Estimated Useful Lives (Years)	Cost	Accumulated Depreciation	Net	Depreciation Expense
Furniture and fixtures	7	\$ 1,414	\$ 1,355	\$ 59	\$ 201
Computers and software	3	404	262	142	13
Office equipment	5	905	769	136	37
Leasehold improvements	11½	4,377	2,642	1,735	392
Intangible assets	3	4,883	4,828	55	184
Vehicles	5	212	197	15	6
		<u>\$ 12,195</u>	<u>\$ 10,053</u>	<u>\$ 2,142</u>	<u>\$ 833</u>

Note 4. Leases

Truth Initiative leases office space under an operating lease agreement which commenced on September 1, 2015. The lease term is 135 months and includes a 15-month rent abatement, annual rent escalations and an improvement allowance. These benefits and escalations are recognized on a straight-line basis over the life of the lease. Operating lease cost is recognized on a straight-line basis over the lease term. The unrecognized portions are reflected as deferred rent on the accompanying balance sheets. Truth Initiative's share of real estate taxes and operating costs are determined annually.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 4. Leases (Continued)

Future undiscounted cash flows for each of the next four years and a reconciliation to the lease liabilities recognized on the balance sheet are as follows as of June 30, 2023

Years ending June 30:		
2024	\$	2,126
2025		2,179
2026		2,234
2027		949
Total lease payments		<u>7,488</u>
Less imputed interest		<u>(353)</u>
Total present value of lease liabilities	\$	<u><u>7,135</u></u>

Operating lease cost for the year ended June 30, 2023, was \$2,717.

At June 30, 2023, the weighed-average remaining lease term for operating leases is 3.41 years. At June 30, 2023, the weighted-average discount rate for operating leases is 2.88%.

Supplemental cash flow information related to leases is as follows for the year ended June 30, 2023:

Cash paid for amounts included in measurement of lease liabilities:		
Operating cash outflows—payments on operating leases	\$	<u><u>2,074</u></u>
Right-of-use assets obtained in exchange for new lease obligations:		
Operating leases	\$	<u><u>5,931</u></u>

Future minimum lease commitments, as determined under Topic 840, for all non-cancelable leases are as follows as of June 30, 2022:

Years ending June 30:		
2023	\$	2,074
2024		2,126
2025		2,179
2026		2,234
2027		949
	\$	<u><u>9,562</u></u>

Rent expense amounted to \$2,722 for the year ended June 30, 2022.

Note 5. Retirement Plans

Truth Initiative maintains an employee 401(k) savings plan. Employees who are at least 21 years of age are eligible for enrollment and participation in the first month following the completion of 180 days of employment. During the year ended June 30, 2020, Truth Initiative contributed 15% of the base compensation for each employee. Beginning on July 1, 2020, Truth Initiative contributes 10% of the base compensation for each employee. Participants may elect to defer their compensation subject to statutory limitations of the Internal Revenue Service.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 5. Retirement Plans (Continued)

Expenses related to the retirement plan amounted to \$1,665 and \$1,518 for the years ended June 30, 2023 and 2022, respectively.

Truth Initiative has established a deferred compensation plan to provide certain eligible employees the ability to defer a portion of their compensation to provide supplemental retirement benefits under IRC §457. The plan is funded entirely from the compensation of the participants and vested with the employees immediately. At June 30, 2023 and 2022, participants in the 457(b) plan had deferred balances, including income earned, totaling \$1,418 and \$1,315, respectively.

Truth Initiative had established a second deferred compensation plan to provide certain eligible employees the ability to defer a portion of their compensation to provide supplemental retirement benefits under IRC §457. The plan is funded entirely from the compensation of the participants and the participants became fully vested on September 30, 2022, with forfeiture if employment ended either voluntarily or involuntarily before this date. At June 30, 2023 and 2022, participants in the 457(f) plan had deferred balances, including income earned, totaling \$0 and \$975, respectively.

Note 6. Fair Value Measurements

The Codification defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Truth Initiative utilizes valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets and liabilities recorded at fair value are categorized within the fair value hierarchy based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and listed derivatives. As required by the guidance provided by the Codification, Truth Initiative does not adjust the quoted price for these investments, even in situations where Truth Initiative holds a large position and a sale could reasonably impact the quoted price.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. Investments which are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation.

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 6. Fair Value Measurements (Continued)

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy as of June 30, 2023:

	Total	Level 1	Level 2
Assets:			
Cash equivalents:			
Repurchase agreements	\$ 16,143	\$ 16,143	\$ -
Money market funds	57,389	57,389	-
Total cash equivalents	<u>73,532</u>	<u>73,532</u>	<u>-</u>
Investments:			
Mutual funds:			
Global small/mid value	24,339	24,339	-
Real estate	10,050	10,050	-

Fixed income bonds	35,947	-	35,947
Other investments measured at net asset value (a)	454,096	-	-
Total investments	<u>676,256</u>	<u>186,213</u>	<u>35,947</u>
Total investment assets and cash equivalents held at fair value	<u>\$ 749,788</u>	<u>\$ 259,745</u>	<u>\$ 35,947</u>
Liabilities:			
Deferred compensation obligation	\$ 1,418	\$ -	\$ 1,418
Total liabilities	<u>\$ 1,418</u>	<u>\$ -</u>	<u>\$ 1,418</u>

Truth Initiative Foundation

Notes to Financial Statements (In Thousands)

Note 6. Fair Value Measurements (Continued)

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy as of June 30, 2022:

	Total	Level 1	Level 2
Assets:			
Cash equivalents:			
Repurchase agreements	\$ 68,456	\$ 68,456	\$ -
Money market funds	45,843	45,843	-
Total cash equivalents	114,299	114,299	-
Investments:			
Mutual funds:			
Global small/mid value	23,944	23,944	-
Emerging markets	14,777	14,777	-
Real estate	12,476	12,476	-
	51,197	51,197	-
U.S. stocks:			
Large cap	112,461	112,461	-
Small cap	26,827	26,827	-
	139,288	139,288	-
Global stocks—developed markets	21,787	21,787	-
Fixed income bonds	34,674	-	34,674
Other investments measured at net asset value (a)	464,967	-	-
Total investments	711,913	212,272	34,674
Total investment assets and cash equivalents held at fair value	\$ 826,212	\$ 326,571	\$ 34,674
Liabilities:			
Deferred compensation obligation	\$ 2,290	\$ -	\$ 2,290
Total liabilities	\$ 2,290	\$ -	\$ 2,290

(a) In accordance with the Fair Measurements topic, certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the balance sheets.

Truth Initiative assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with Truth Initiative's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. There were no transfers among Levels 1, 2 and 3 during the year.

Notes to Financial Statements (In Thousands)

Note 7. Commitments and Contingencies

Federal awards: Truth Initiative participates in federally assisted grant programs that are subject to financial and compliance audits by the federal agencies or their representative. As such, there exists a contingent liability for potential questioned costs that may result from such an audit. Management does not anticipate any significant adjustments as a result of such audits.

Legal: From time to time, Truth Initiative may be subject to various legal proceedings which are incidental to the ordinary course of business. In the opinion of the management of Truth Initiative, there are no material pending legal proceedings to which Truth Initiative is a party.

Loan payable: As part of the Coronavirus Aid, Relief and Economic Security Act, Truth Initiative applied and was approved for a forgivable loan through the Small Business Administration (SBA) Paycheck Protection Program (PPP). Under the PPP, Truth Initiative obtained a loan of \$3,500, bearing interest at 1%. Truth Initiative accounted for the loan under FASB ASC Topic 470, Debt. During the year ended June 30, 2022, Truth Initiative applied for and received loan forgiveness of the outstanding principal and accrued interest of \$3,544 and recognized as part of sponsored projects and other income on the statement of activities. The loan forgiveness is subject to audit by the SBA for a period of six years after the forgiveness.

During October 2020, Truth Initiative obtained a term loan in the original principal amount of \$30,000 with a financial institution, which was due to mature on October 1, 2022. During the year ended June 30, 2022, this loan was fully paid off and the facility was closed. As of and after November 1, 2020, the outstanding principal accrued interest at a fixed rate of .99%. Interest was payable monthly, with the full remaining principal due at maturity.

During November 2021, Truth Initiative obtained a term loan in the original principal amount of \$90,000 with a financial institution, which is due to mature on November 15, 2024. The outstanding principal bears interest at 1.1%. Interest is payable monthly with the full remaining principal due at maturity. At June 30, 2023 and 2022, there was outstanding principal of \$90,000, which is shown with loans payable on the balance sheets.

Total interest expense on the loan payable and other debt (line of credit), including amortization of debt issuance costs, amounted to \$1,421 and \$1,844 for the years ended June 30, 2023 and 2022, respectively.

Loan payable as of June 30, 2023 and 2022, consist of the following:

	2023	2022
Principal amount	\$ 90,000	\$ 90,000
Less unamortized debt issuance costs	(562)	(970)
	<u>\$ 89,438</u>	<u>\$ 89,030</u>

Line of credit: Truth Initiative maintained a \$60,000 line of credit with a financial institution, which was due to mature on September 30, 2022. During the year ended June 30, 2022, this line of credit facility was closed. Any amounts drawn on the line accrued interest at a fixed rate of 3.50%. Interest was payable monthly, with the full remaining principle due at maturity. Interest incurred on the note was \$799 for the year ended June 30, 2022.

Note 8. Liquidity and Availability of Financial Assets

Truth Initiative regularly monitors liquidity required to meet its annual operating needs and other contractual commitments, while also striving to maximize the return on investment of its funds not required for annual operations. Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprise the following:

	2023	2022
Cash and cash equivalents	\$ 78,524	\$ 116,877
Investments	676,256	711,913
Trades to be settled	310	216
Accrued interest receivable	456	244
Grants receivable	205	128
Accounts receivable	951	505
Financial assets at year-end	<u>756,702</u>	<u>829,883</u>
Less those unavailable for general expenditure within one year due to:		
Contractual restrictions:		
Investments held with redemptions periods longer than one year	(209,212)	(231,629)
Unfunded investment commitments	(209,144)	(60,210)
Deferred compensation obligations	(1,418)	(2,290)
	<u>(419,774)</u>	<u>(294,129)</u>
Financial assets available to meet cash needs for general expenditure within one year	<u>\$ 336,928</u>	<u>\$ 535,754</u>

Truth Initiative has various sources of liquidity at its disposal, including cash and cash equivalents, investments, receivables and debt facilities. See Note 7 for information about Truth Initiative's debt facilities. As part of liquidity management, Truth Initiative invests cash in excess of daily requirements in investments. Truth Initiative regularly assesses its operating budget and cash flow projections to monitor the availability of resources to support operations.
